Para 4. The Contractors justly complain of the present rule under which no allowance is made for wastage in respect of liquor issued to the City and the C tonms. It is proved by actual experience that some wastage does occur in the transmission of liquor from the Distillery to the Wholesale depôt to and in its storage therein; and it seems equitable to allow them wastage to the extent of one per cent for issues to the City and Station

Para 9. The other arrangements required are: —

Clause (6). The Contractor should be allowed wastage for issues to City and Cttms at 1 per cent.

The Resident observes that the claim should have been made from year to year as it became due - The extracts given in the margin shew that the Resident acquiesced in the justice of the Contractor's claim to the wastage in question - MSR

6/12/92

The Resident's attention may be drawn to these extracts and a hint expressed that the Govt of India will be pleased to accede to the Residents application for the supplemental grant. The Durbar are sorry that this claim was not made from year to year but some misapprehension had to be pointed as to the sufficiency otherwise. After 1 p/ rate - Sto

3. Extract from this office letter to the Resident. No 7 dated 26th June 1888 (Paper Serial No 4 of R. F 169-92)

Para 5. The difference of 6 piece between the two calculations is due probably to the concession on account of wastage (Clause 4 of para 5 of your letter) But this concession is not an actual payment from the Treasury by way of refund but only a remission of duty to be upon one gallon for every 100 issued.

Para 8 - The Durbar is of course prepared to pay into the Resident's Treasury the whole of what is re-ceives on account of the Arrack issued for Consumption in the Civil and Military Station, that is to say, Rs 3-5-4 + Re 1-5-2 on every gallon issued subject to 1 per cent allowance on account of wastage.

It is now unnecessary to write to the Residency further, as the Appellants' No 4198 of 92 admits payment. The papers may now be filed.

Office of the Excise Commissioner,

No. 16/4 (Encls. 1-)

Dated, Bangalore, 30th June/92
1-7

From,

The Excise Commissioner,
in Mysore.

To,

The Chief Secretary to the Dewan
of Mysore.

Sir,

I have the honor to state that Messrs C. Lapamiah & Co; Late Arrack Contractors, claim one per cent wastage on the issues of liquor to the Civil and Military station for the period of two years and ten months, during which the reduced drum measure system was in operation.

x Ten months in 1889/90
the year 1890/91
" — 1891/92.

2. Under the terms of their Contract, they are not entitled to any wastage on the issues of liquor to the City and Civil and Military Station of Bangalore. But when the above system was proposed, the Excise Assistant Commissioner admitted & made a wrong calculation by showing one per cent as wastage, while it was really only 1/4 or 1/2 per cent. Accordingly the Deputy Commissioner recommended the allowance of one per cent wastage to the Contractors, in his letter No: 959, dated 14th March 1888, regarding the introduction of the aforesaid System.

2. The Dewan in his letter No: 3, dated 16th April/88, to the Resident

Resident remarked as follows:- "It is proved by actual experience that some wastage does occur in the transmission of liquor from the Distillery to the whole: Sale Depôts and in its Storeage therein; and it seems equitable to allow them wastage to the extent of one per cent for issues to the Station and City". Again, in his letter No:7, dated 26th/28th June/88 to the Resident, the Dewan states- "The Durbar is, of course, prepared to pay into the Resident's Treasury the whole of what it receives on account of the Arrack issued for consumption in the Civil and Military station, that is to say, Rs 3-5-- + 0-5-2 on every gallon issued, subject to one per cent allowance on account of wastage". But in the Dewan's finial letter No: 20, dated 5th December/88, to the Resident, the formal Sanc: tion of the Resident was requested only to the following arrange: ments:-

(1) The reduction of the dram measure to 1500 minims from 1600 minims, that is 75/51 from 1/48 of an Imperial gallon.

(2) The increase of Wholesale price per gallon from Rs 4-6-4 to Rs 4-7-10, and of the retail price from Rs 5-- -- to Rs 5-5--.

The Dewan also added in para 4 of the letter that the duty of Rs 3-5-- per gallon and the increased establishment esp of one anna per gallon would be credited to the Resident's Trea: Sury; he did not however say, as he did in his letter No:7, dated 26th/28th June/88, that such credit was subject to one per cent allowance on account of wastage. It is thus evident that when the finial proposals were submitted by the Dewan in his letter No:20, dated 5th December/88, the Excise Assistant Commissioner's error had been discovered, and consequently the question of allowing one per cent wastage to the Contractors was dropped in the last letter; and it has to be observed that

no

no wastage has, at any time, been allowed for the Civil & Military station of Baugalore.

3. But following the Dewan's proposals in the previous letters Nos 3, dated 16th April 1888, and 7, dated 26/28th June 1888, the Resident evidently recommended to the Government of India an allowance of one per cent wastage to the Contractor, under a misapprehension that the Durbar granted the same for the City of Baugalore. The Government of India accordingly sanctioned it. Hence the Contractor's claim.

4. The Durbar have never allowed any wastage for the city, nor have the Contractors ever claimed it.

5. Under the above circumstances, I beg that the question may be settled one way or the other in communication with the Resident.

I have the honor to be,

Sir,

Sir In reply to your letter No. 16/4 dated 30th June last regarding the claim of C. Papanna & Co. for 1% wastage upon issues to the Civil & Mil. Station, I am desired to inform you that the omission of allowance at the rate of wastage in the Dewan's letter to the Resident No. 20 of 5 Dec 88, was not due to the discovery of any error in calculations the actual wastage or to any intention to withdraw the previous proposal (made in letters No. 32 & 16 April & 26 June 88 respectively) to allow ~~for~~ 1% wastage for both the Station & the Lines

2. It is however believed that neither the Residency ~~authorities~~ nor the Excise Commr: has in any way led Messrs C. Patamma & Co. to expect an allowance of 1% on account of wastage for the Station & City, and being under this belief the Govt are of opinion that an Equitable rate of wastage (as near as possible the actual wastage but not exceeding 1%) should be allowed to the late Contractors for the period subsequent to the change of the drum measure—

3. In regard to the settlement of the account with the late Contractors, it has already been arranged that the Railway Debentures amounting to Rupees 74,000 out of the Security deposits on account of their late arrack contract and late toddy contract of the Chitaldroog District, should be purchased by Government at 8% premium. The total amount thereby realized will be reported to Government on the same being communicated to this Office by the Comptroller. The Collector, Civil and Military Station, has been requested to remit to the State Huzur Treasury the amount due to the Contractors, viz Rs 1310-9-3 on account of the stock of liquor which remained unsold on 1st April 1892 in the Wholesale Depôt at the Civil and Military Station, to be utilized towards the liquidation of their arrears. The amount due to them by the Mysore Government which

which will be about Rs 11,300, on account of the stock on 1st April 1892 in the Wholesale depôts at the City of Bangalore, and in the Districts, will be similarly utilized on receipt of accurate information regarding double — distilled liquors &c, which is still due from some Amildars and the Contractors themselves to whom repeated reminders have been sent. The Contractors have promised to settle ere long the portions of the remaining arrears due by each of the members of the firm; and should they fail to do so, coercive measures will be adopted to recover the amounts.

4. As regards the account connected with Mr. C. Papanna's present contract of supply to Bonded Depôts, I beg to inform you that he has not as yet executed his contract Bonds which were finally approved by Government in Proceedings No: $\frac{5310}{486}$, dated 22nd June 1892. I regret to state that he has disregarded the repeated and very urgent reminders sent to him on the subject. The Bills for remuneration due to him, have been returned with your No: $\frac{4790}{429}$, dated 11th June 1892, pending the execution of the Contract Bonds by him. Sir.

I have the honor to intimate that the marginally noted bill for Rs 22 10-8-8 received with Government Proceedings No 12836-7 R 45-92 dated 24th January 1893, has this day been passed and sent to the Deputy Commissioner, Treasury Department, Bangalore District for

Bill for the amount of duty to be refunded to Messrs. S. Pasand and Co, late Arrack contractors on the Arrack Warehouse licensed in the City of Bangalore in 1889-90 - 1890-91 and 1891/92

adjustment by debit to 6 Excise as wastage incurred on carrying liquor and credit to 4 Excise "Arack" as part payment of the arrears due by Messrs C. Papanah and Co, on account of their late arrack contract.

As regards the certificate of credit required to be recorded on the bill in question before audit, I beg to state that the total value of liquor issued from the Distillery was taken as demand against the Contractors

and was recovered from them from time to time leaving still a balance in arrears. It is not therefore possible to say whether the amount in question was recovered and if so, in what particular item it is included. It will further be observed that the amount remitted is the value of liquor actually wasted in carriage, and it has to be taken as a set off against the arrears due by the Company.

I have the honor to be
Sir
Your most obedient Servant.
